

## TA Resources

This document serves as a curated list of campus resources that may benefit you, either as a graduate student or as a TA. As a graduate student, you may have received most of this information during student orientation, but likely not all in one document. As a TA, you may also find it helpful to point your students to these resources as needed. Please refer to the TA Decision Chart document for examples of situations when you would refer students to some of these resources. Note: this resource is up-to-date as of June 2017.
